070 Zoe

Welcome to the Lea Elite, Zoe Collection. A transitional group with simple shapes and design influences that accentuate any setting.

The finish is a bright white painted finish and polished nickel, recessed pull hardware. Framed drawer fronts, bun feet, shaped pilasters and soft curves add to the upscale feminine styling.

Zoe offers multiple unique sleep options and storage possibilities with lots of look and function.

Zoe is a versatile group that offers a lasting style that works for youth, teen and even smaller master bedroom settings.

Bright White Painted Color Finish with Polished Nickel Color Hardware. Crafted of American Poplar and Select Wood Products.

What Makes It Elite?

The Lea Elite Collections use higher quality materials and step up features usually associated with more expensive, heirloom quality furniture.

Welcome to the Lea Elite, Zoe Collection. A transitional group with simple shapes and design influences that accentuate any setting.

The finish is a bright white painted finish and polished nickel, recessed pull hardware. Framed drawer fronts, bun feet, shaped pilasters and soft curves add to the upscale feminine styling.

Zoe offers multiple unique sleep options and storage possibilities with lots of look and function.

Zoe is a versatile group that offers a lasting style that works for youth, teen and even second or guest bedroom settings. Depending on accessorization, Zoe can appeal to a broad age range.

Superior Drawer Construction

Drawer parts are hand sanded to create a smooth interior and finished with a stained protective top coat to provide a snag free drawer interior.

Traditional English dovetail construction featuring interlocking dovetail joints on drawer fronts and drawer backs providing more strength and durability than commonly used French dovetail or box joints.

Drawer bottoms that are reinforced by corner blocks and center rails.

Drawers that extend completely out of the case provide more useful storage space with easier access to the contents of the drawers. Drawers also feature automatic drawer stops to prevent drawers from falling out of the case.

Select drawers include consumer friendly features such as aromatic cedar bottoms or removable drawer dividers to help provide organization of drawer contents.

Sturdy Case Construction

Drawers feature full extension drawer guides with steel ball bearings that provide easy one-handed smooth operation and greater drawer stability than standard center mounted drawer guides. Drawers also feature automatic drawer stops to prevent drawers from falling out of the case.

Hardwood frames with protective panels between each drawer help keep clothes dust free.

Back panels are recessed and attached by screws providing more strength and structural integrity than stapled on back panels.

Safety and Bed Construction

Lead free child safe finishes that meet all US Safety requirements.

Anti-tip over restraint kits that secure the case to the wall to prevent cases from tipping over are included with all cases 30" tall or taller.

Slat roll mattress support systems providing mattress support without the need for a box spring or a bunkie board, come standard with bunk beds, loft beds and platform beds. Each slat fastens with a screw providing additional strength and structural integrity to the beds.

Twin and full size Panel beds feature two rail heights that will accommodate multiple underbed storage options that offer deep under bed storage drawers or dual function trundle/storage capability that take advantage of unused space under the beds.
